

# ROADWAY RESURFACING IMPROVEMENTS

S.R. 528 from U.S. 1 (S.R. 5) to east of North Courtenay Parkway (S.R. 3)

## Brevard County

### PROJECT DESCRIPTION

The Florida Department of Transportation (FDOT) is improving safety and traffic operations on State Road (S.R.) 528 in the City of Cocoa, from U.S. 1 (S.R. 5) to east of North Courtenay Parkway (S.R. 3). FDOT aims to improve access and mobility throughout the project limits by resurfacing and repaving the roadway to extend the longevity of the roadway. This project also includes installing median guardrail throughout the project, upgrading existing guardrail, closing unauthorized median crossovers, upgrading approved crossovers, and drainage improvements.

### WHAT TO EXPECT

Motorists should expect nighttime lane closures throughout construction. Electronic message boards and other signage will be used to alert motorists of traffic changes. Uneven pavement is a common, unavoidable roadway condition with projects that require resurfacing, as the contractor must place different layers of asphalt during various phases of construction. The project will include ramps at the U.S. 1 (S.R. 5) and North Courtenay Parkway (S.R. 3) interchanges and will require ramp closures and detours during construction. Road conditions during construction will become less apparent as the project progresses. Motorists are asked to exercise caution and reduce their speed while driving through the work zone.

The construction schedule may change due to weather or other unexpected conditions. For the most current project details and lane closure information, make sure to visit the project page on FDOT's Central Florida website, [www.cflroads.com](http://www.cflroads.com).

### Financial Project Identification (FPID) No.: 441016-1

#### CONTRACTOR

Masci General Contractors, Inc.

#### PROJECT COST

\$10.8 Million

#### PROJECT START

June 2023

#### ESTIMATED COMPLETION

Late 2024
