

South 14th Street (S.R. 25/U.S. 27) at South Street/West Dixie Avenue (S.R. 44) Safety Improvements

Lake County

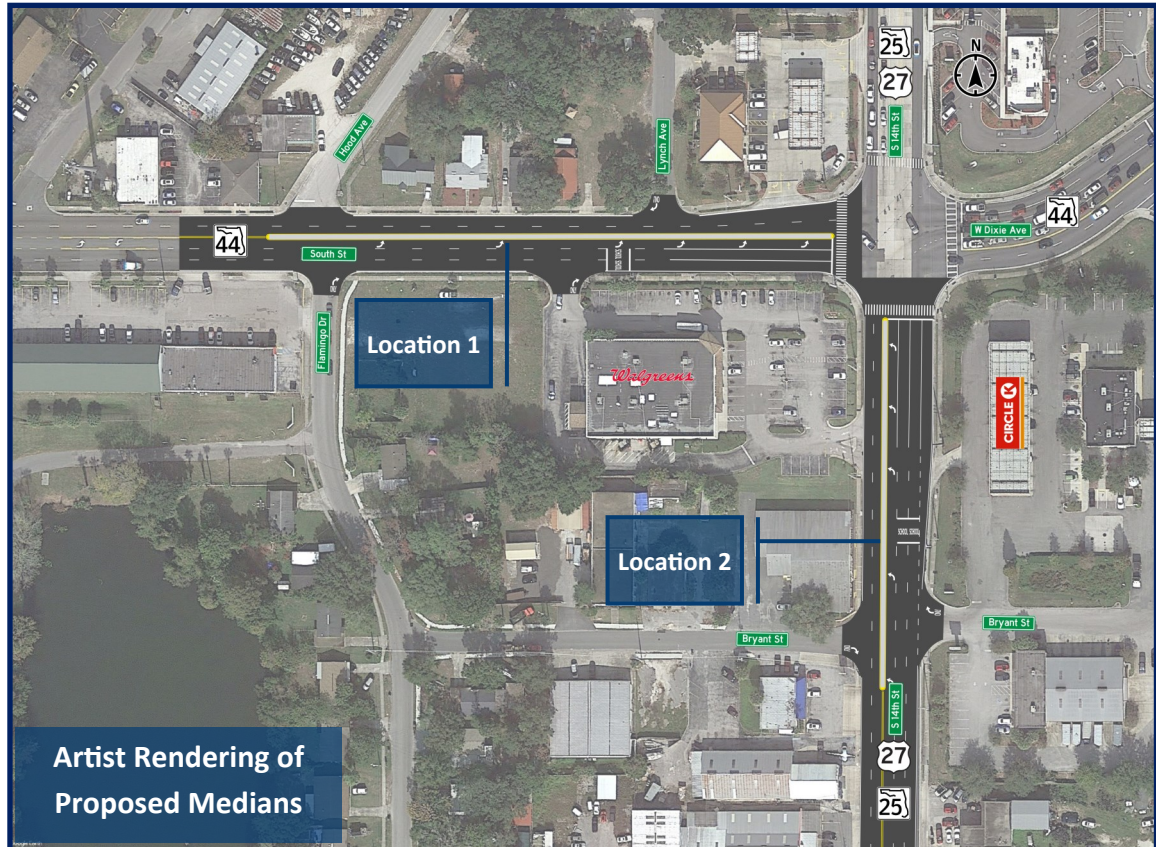

Financial Project Identification (FPID) No.: 992200-5

Project Description

The Florida Department of Transportation (FDOT) is proposing safety improvements at the intersection of South 14th Street (State Road (S.R.) 25/U.S. 27) and South Street/West Dixie Avenue (S.R. 44) in Leesburg, Lake County.

FDOT proposes constructing two raised concrete medians at this intersection. One median is planned on South Street from west of Flamingo Drive/Hood Avenue to the intersection at South 14th Street (Location 1). The other median is proposed along South 14th Street, from south of Bryant Street to the intersection at South Street (Location 2). These medians will limit left

turning movements along each corridor and onto side streets and driveways. These improvements will enhance safety by implementing improved access control, enhancing traffic flow, and reducing the possibility of conflict points, or locations where a crash can occur.

Project Status and Estimated Costs*

Design:	Spring 2025	\$	40,000
Right of Way:	Within Existing		
Construction:	Funded - Fall 2025	\$	200,000
